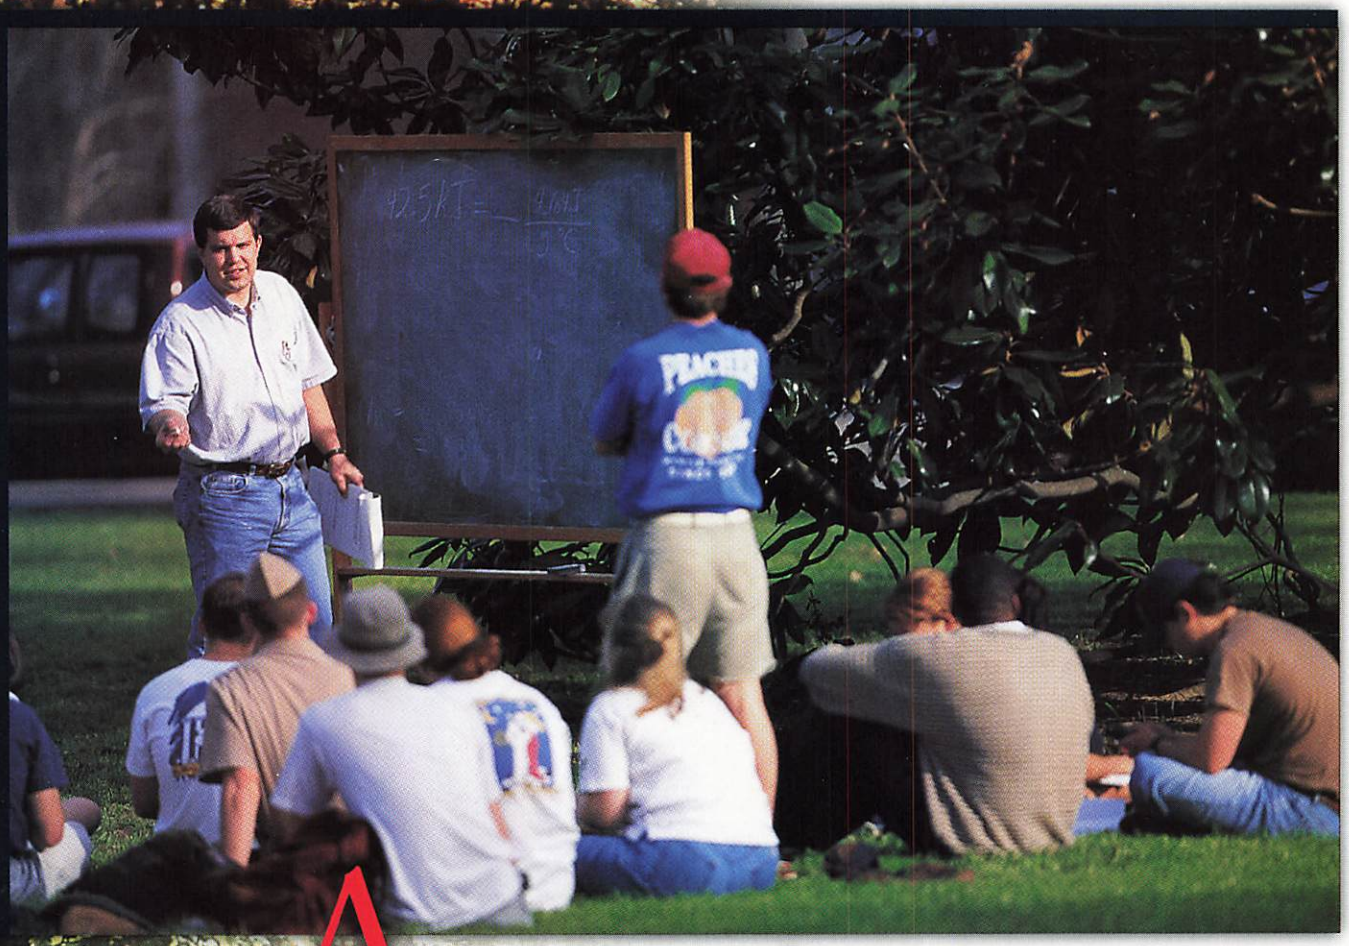
State-of-the-art technology, construction of new facilities, and growth of our Oxford community are propelling Ole Miss into the future.

We've Got The Momentum!



A Dynamic & Beautiful Campus

***The Student Guide to America's 100 Best College Buys: 1997-98* and *The Student Guide to America's Best Scholarships: 1998-99* both feature Ole Miss.**

Best College Buys highlights colleges and universities that have an entering freshman grade-point average and SAT score above the national average, with tuition costs below the national norm. Ole Miss is one of only 100 institutions included in this guide.

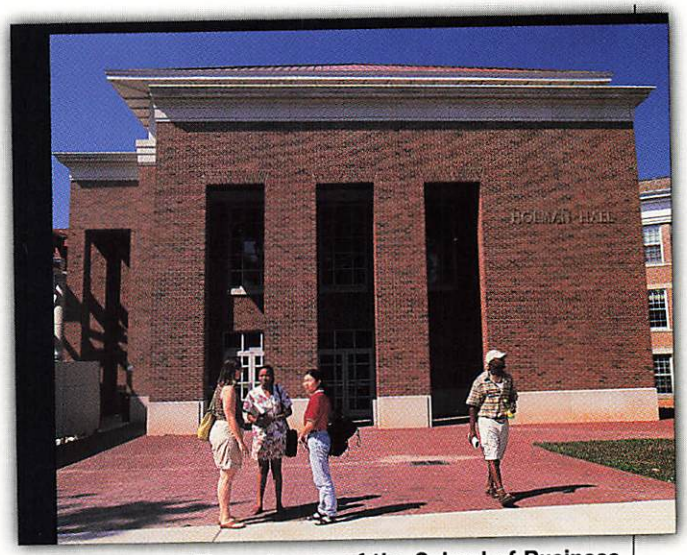
Best Scholarships rates colleges and universities on merit-based scholarships, which are awarded to students with good grades in high school who have demonstrated outstanding citizenship. Ole Miss is one of only 93 of the nation's colleges and universities featured in this publication.

The first thing most people notice about The University of Mississippi campus is its beauty. This is especially true in spring—an explosion of color as azaleas and tulips bloom and hundreds of hardwoods spread out a canopy of green. The next thing people notice about Ole Miss is how friendly the campus is.

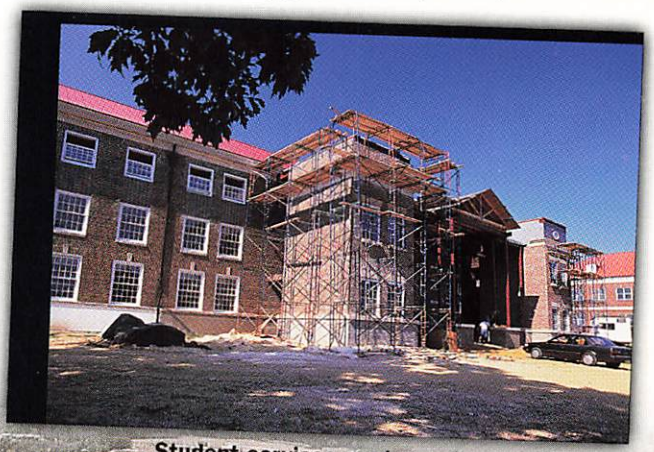
Although the main campus comprises 640 acres, the layout of the main academic buildings is compact, so you'll have plenty of time to get from one building to another between classes. The Grove and the Circle at the heart of campus provide broad expanses of shaded lawn perfect for sunny afternoons of frisbee, studying, or just hanging out with your friends or your dog. You'll even discover that professors are vulnerable to beautiful weather: There's always a class or two meeting outdoors on a pretty day.

Growing and Changing

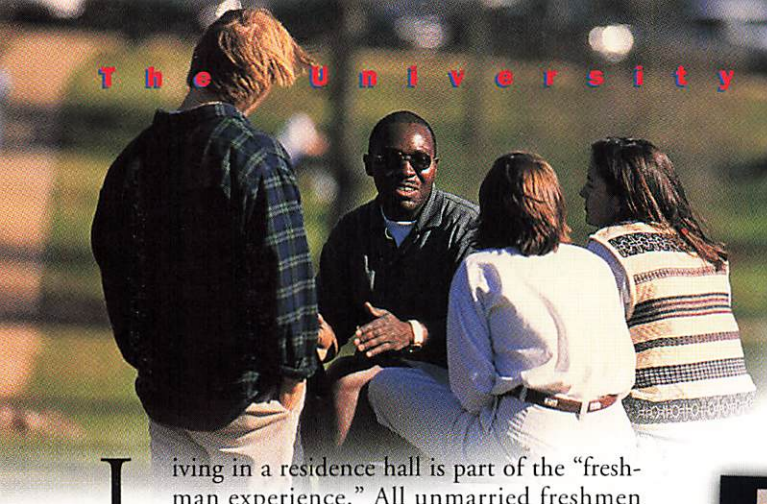
- Holman Hall opened in fall 1997, giving the **School of Business Administration** twice the amount of space it previously occupied, including a dozen new state-of-the-art classrooms and a 154-seat auditorium with multimedia capabilities.
- The **School of Accountancy** is scheduled to move into a completely renovated Conner Hall by fall 1998.
- A $500,000 investment created a new **fitness center** with all the latest workout equipment in fall 1997.
- The Old Gym is undergoing a $5.7 million renovation from which it will emerge as a **student services center** sometime in 1998. This new facility will bring offices such as financial aid, admissions, and the Career Center conveniently under one roof.



The entrance of the School of Business Administration's new home belies the massive size of this 55,000-square-foot facility.



Student services center under construction

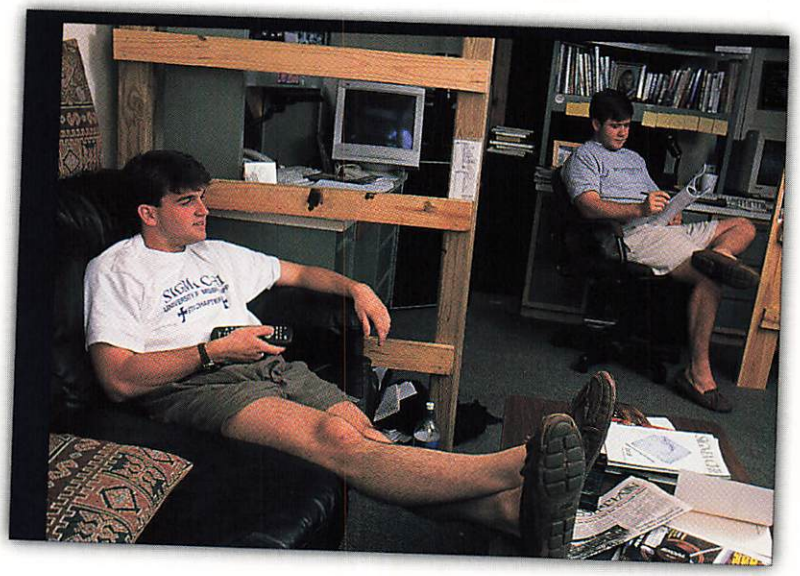


Living on Campus

Living in a residence hall is part of the "freshman experience." All unmarried freshmen (except commuters who live with their parents) are required to live in a University residence hall for the equivalent of one academic year. There are 12 residence halls on campus, seven of which house freshmen.

In your hall, you'll have an instant group of people who know exactly what you're going through—they're all freshmen, too. You and your hallmates will get together during the year for activities like movie nights, cookouts, softball or flag football teams, and Halloween scavenger hunts.

All residence halls are air conditioned, and all rooms are wired for cable TV and have two hard-wired connections to the University's computer network. The halls do vary in size, amenities, and age. Your residence hall may have a sun deck, weight room, kitchen, coin-operated laundry, convenience store, pizza/submarine sandwich outlet, computer lab, and/or study room.



Oxford—NOT YOUR ORDINARY SMALL TOWN

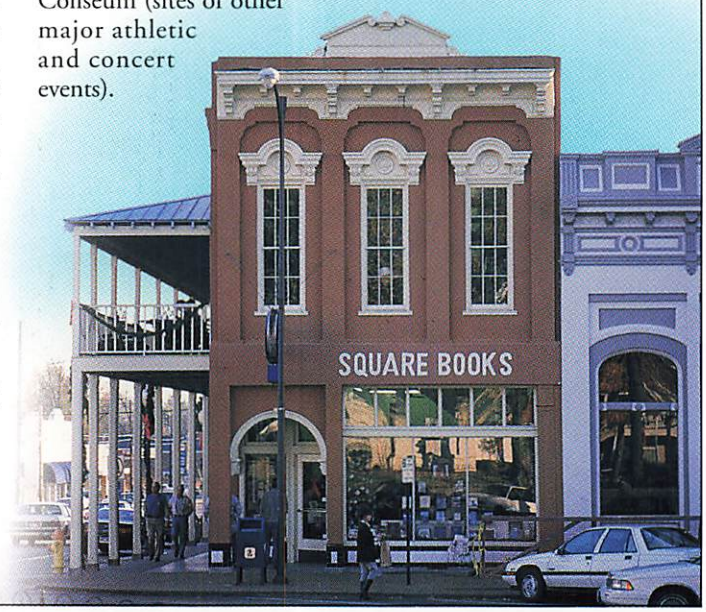
Just about anybody would feel at home in Oxford. Unique in Mississippi, Oxford combines the charm and safety of a small town (population: 10,000) with the sophistication and nightlife of a larger city. You can be on the historic Courthouse Square one minute, taking in the view from a restaurant balcony and listening to live music, and 10 minutes later be off on a dirt road at your favorite fishing hole.

Speaking of live music, you'll find it—blues, alternative, contemporary Christian, and African-influenced World Beat performers—nearly every night at popular spots on and off the Square.

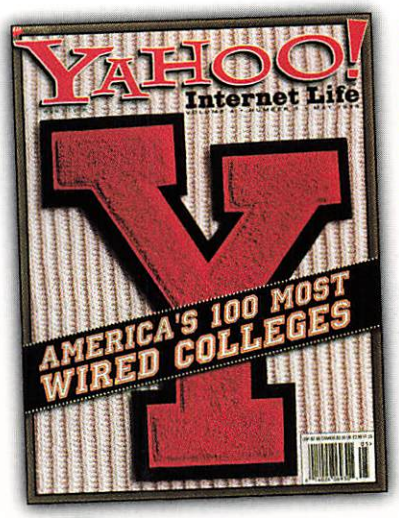
In addition to its music scene, downtown Oxford is home to great restaurants, coffeehouses, and a bookstore *The New Yorker* said was as good or better than any in New York City. There's lots of shopping on the Square and at a mall with a multiscreen movie theater right outside the main entrance to the University.

After all that, if you still want a jolt of city life, Ole Miss is just 75 miles from Memphis, Tennessee (metro population: 1 million), with its international airport, Beale Street historic district, some serious malls, and The Pyramid and Mid-South Coliseum (sites of other major athletic and concert events).

USA Today named Oxford the "Thriving New South Arts Mecca" and one of the top six college towns in the nation. Oxford's outstanding quality of life also landed it in the book *The Best 100 Small Towns in America.*



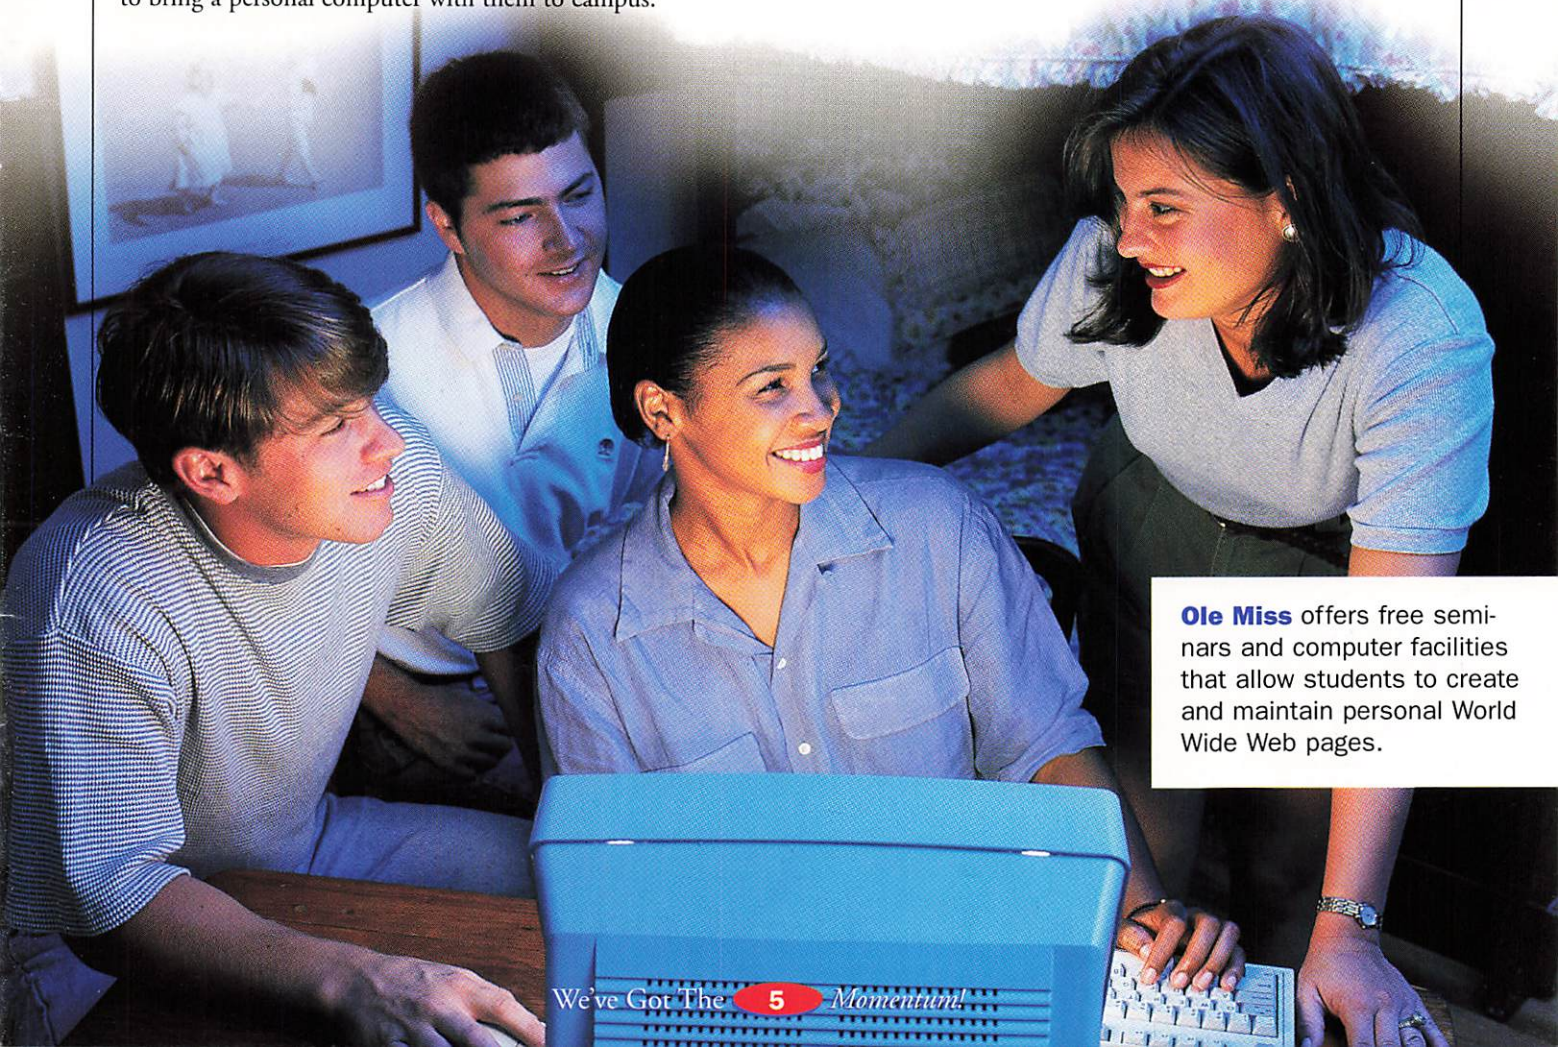
Residence hall rooms vary in size from building to building, but the average room is about 11' x 15'. For freshman dorms, the smallest rooms are in Garland, a men's residence, at 12'9" x 10'9"; the largest are a select group of three-person rooms in Martin-Stockard, residences for women and men, respectively, at 12' x 20' (most rooms in Martin-Stockard are 12' x 15'). For more information about housing at Ole Miss, contact the Office of Student Housing and Residence Life at (601) 232-7328 and ask for a publication called "Living and Learning."



Ole Miss was ranked in the top 40 most wired colleges in the May 1998 issue of Yahoo's online magazine, *Yahoo! Internet Life*. The University of Mississippi was the only university in Mississippi on the list of 100 schools and ranked above institutions such as Auburn, Duke, Vanderbilt, Texas A&M, University of California-Berkeley, University of Michigan, and Princeton.

Hyper-Connectivity

One of the best things about living in a residence hall is that each room is hardwired with two connections to the University's computer network, providing 24-hour-a-day access to library and other campus resources, as well as the Internet. You'll be able to register for classes, check your grades, send and receive e-mail (everyone has his or her own address), and surf the Net using your own personal computer. No need for a modem—in fact, the University network is a faster connection than a modem—and no more tying up the phone line. It's a benefit you won't find off campus or at many other universities. Although there are numerous labs and open computer workstations, the University encourages all students to bring a personal computer with them to campus.



Ole Miss offers free seminars and computer facilities that allow students to create and maintain personal World Wide Web pages.

What's To Eat?

At The University of Mississippi you'll be able to "refuel" somewhere on campus from 7 a.m. 'til 11 p.m. You'll choose from national favorites and home-cooked comfort foods in a variety of locations convenient to you.

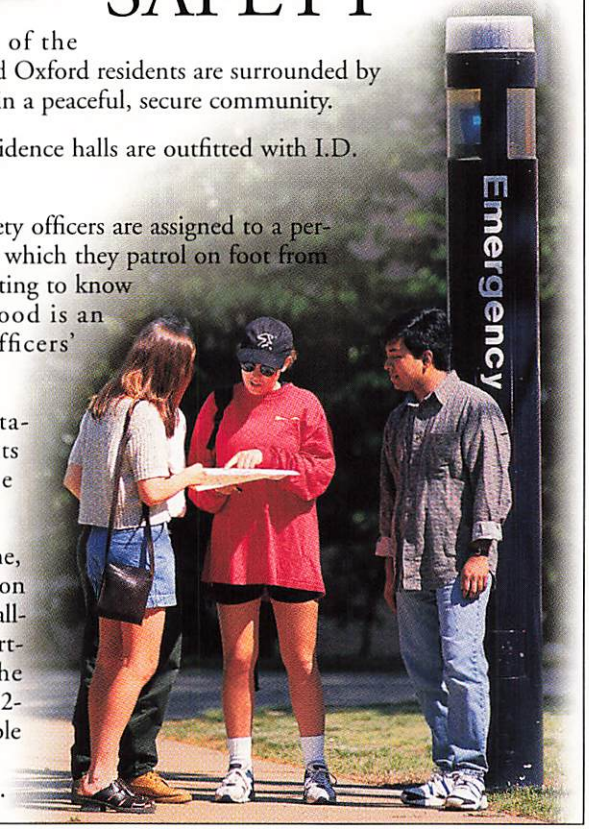
- At our food court in the Student Union, you'll find Chick-fil-A, Little Caesar's Pizza, and Blimpie hot and cold subs, in addition to grilled burgers, pasta favorites, Southern cookin', and a changing menu of ethnic foods.
- Our Johnson Commons Cafeteria offers an all-you-can-eat format of home cooking, pizza, burgers, pasta, deli sandwiches, hand-packed ice cream, and more.

Student Union Food Court

Serious ABOUT SAFETY

The Ole Miss campus is one of the safest in the nation. Students and Oxford residents are surrounded by the reassuring comfort of living in a peaceful, secure community.

- All the women's and men's residence halls are outfitted with I.D. card-access systems.
- Several campus police and safety officers are assigned to a permanent residence hall "beat," which they patrol on foot from 10 p.m.-6 a.m. every day. Getting to know students in the neighborhood is an important part of these officers' duties.
- Fifteen emergency call-in stations on campus give students instant, direct access to the Police Department.



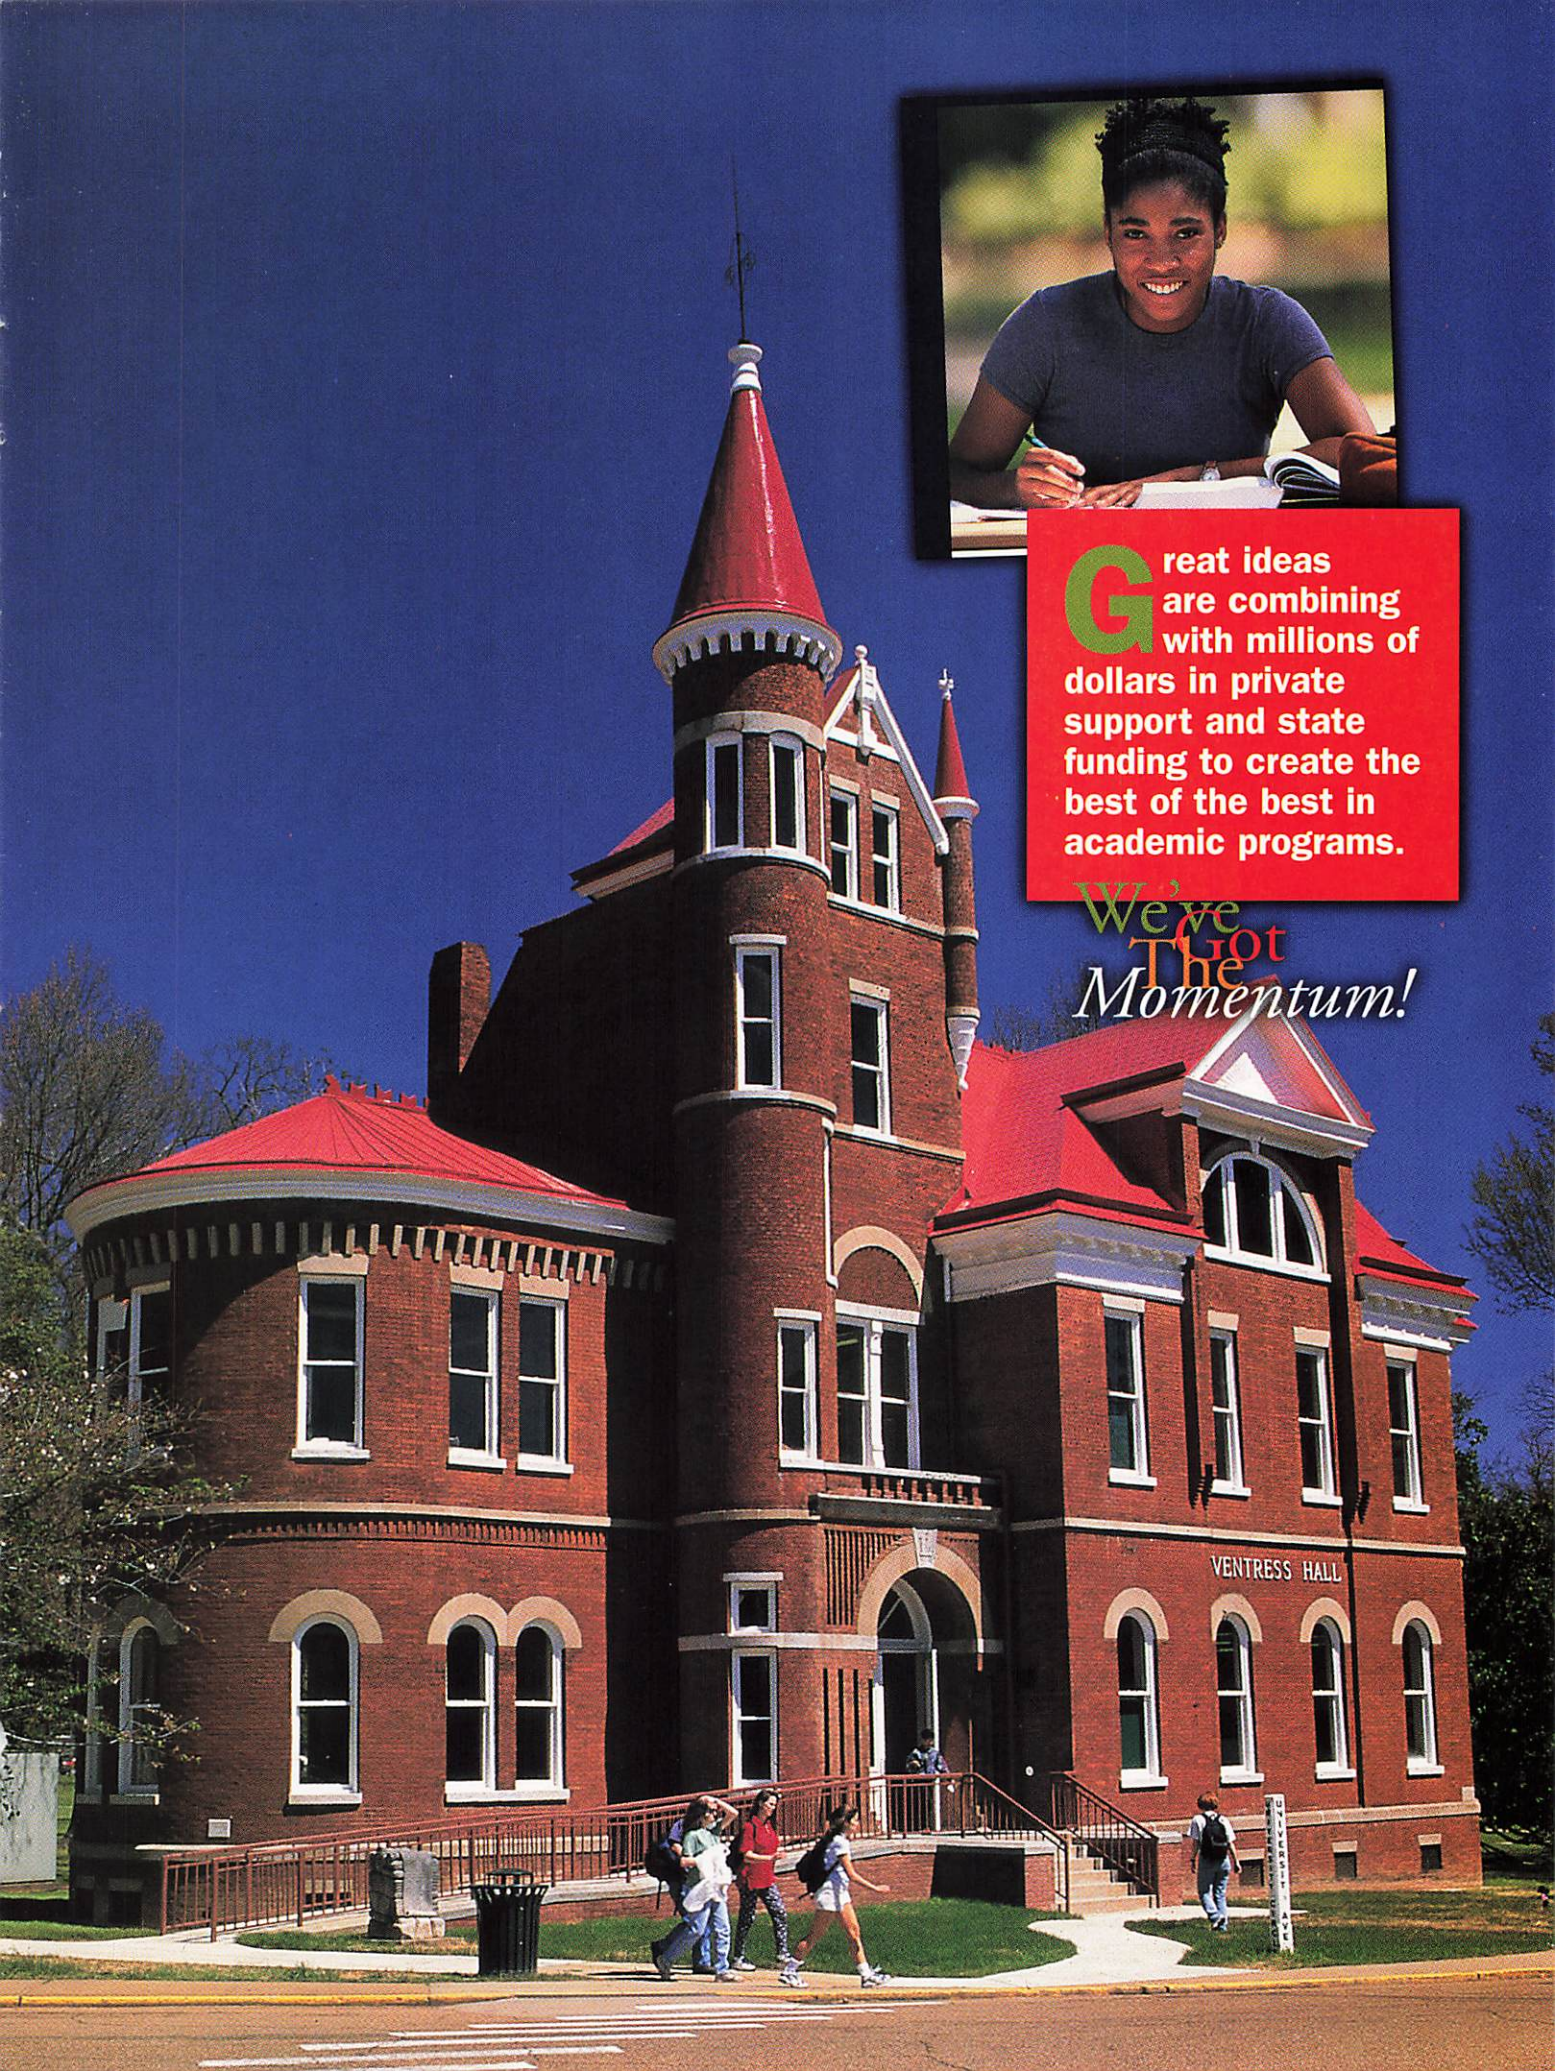
Information about campus crime, including statistics and prevention programs, may be obtained by calling the University Police Department at (601) 232-7234 or the Office of Admissions at (601) 232-7226. Information is also available on the World Wide Web at www.olemiss.edu/depts/u_police/.

Student Health

Dr. Eric Dahl, director of the Student Health Service, says the clinic can handle about 95 percent of a student's health care needs. And he has a folder full of letters from appreciative students and parents that proves he and his staff are good at what they do. One student wrote: "It is very unlike me to seek help and advice, but it turns out that was the best thing I could have done."

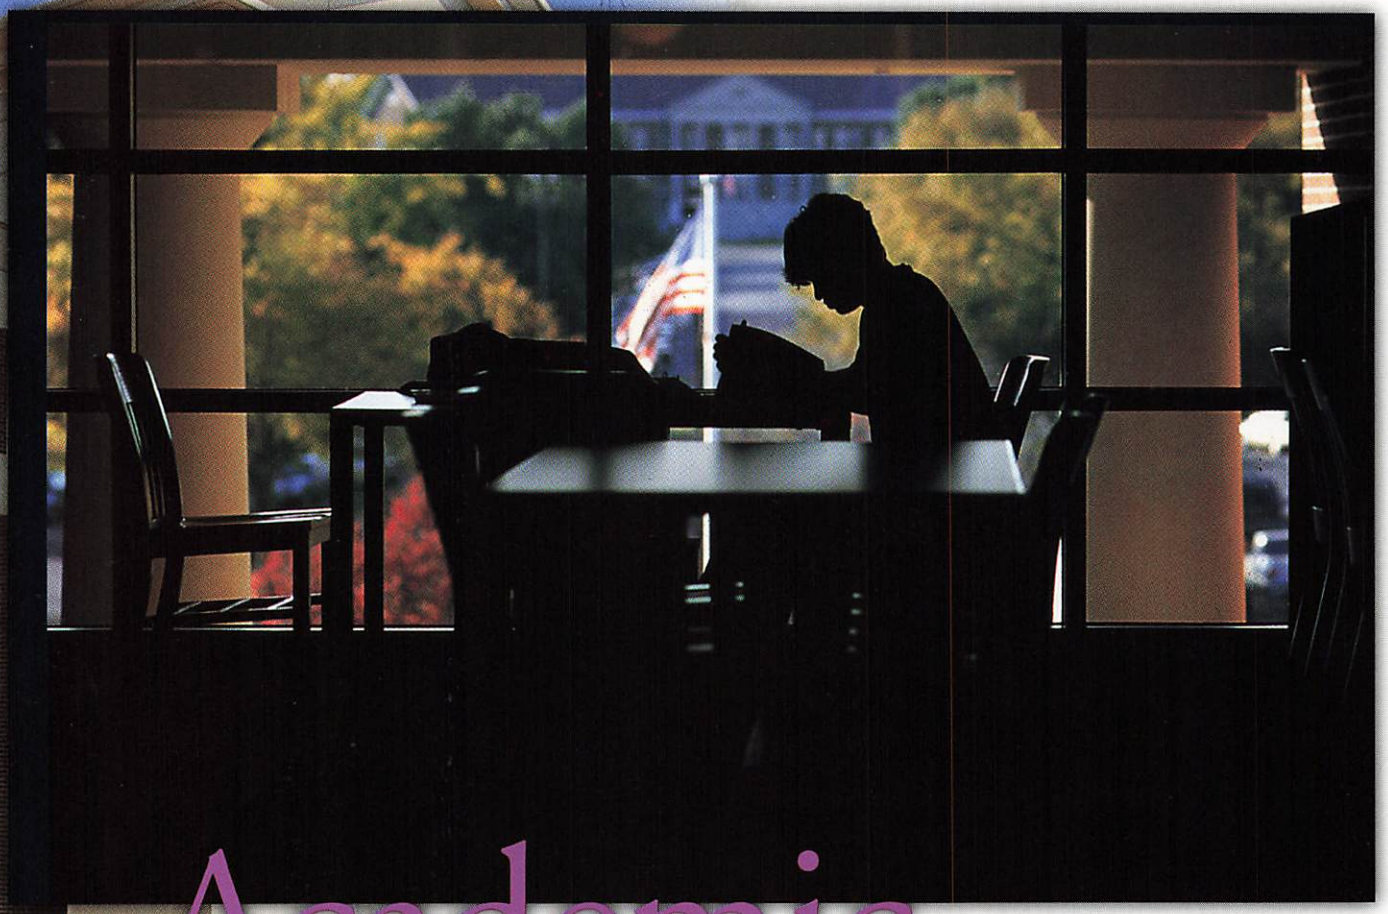
Physicans, nurse practitioners, and nurses provide a complete range of ambulatory care. The staff can also participate with your specialist in monitoring chronic conditions, such as diabetes, allergies, and asthma.

The University also offers the services of a Counseling Center.



Great ideas are combining with millions of dollars in private support and state funding to create the best of the best in academic programs.

We've Got The Momentum!



Academic Programs

ABOUT FRESHMEN

■ **57 percent** of freshmen entering in 1997 were in the top quarter of their high school graduating classes.
■ In 1997, Ole Miss ranked 58th in the country among colleges and universities for the number of freshman National Merit Scholars attending. With 34 freshman scholars, we led many prestigious universities, including the University of Virginia, Georgetown University, and Notre Dame.
■ The average high school GPA among entering freshmen was 3.35.

FINANCIAL AID FACTS

■ More than three out of four Ole Miss students receive some form of financial aid.
■ Scholarships, grants, loans, and part-time work programs are the four primary types of financial aid.
■ The Free Application for Federal Student Aid (FAFSA) is the form that must be completed for programs other than scholarships. FAFSA forms are available from high school counselors' offices in January.

The University of Mississippi Oxford campus comprises nine colleges and schools:

- College of Liberal Arts
- School of Accountancy
- School of Business Administration
- School of Education
- School of Engineering
- School of Law
- School of Pharmacy
- McDonnell-Barksdale Honors College
- Graduate School

The University of Mississippi Medical Center campus in Jackson offers programs in the

- School of Medicine
- School of Dentistry
- School of Nursing
- School of Health Related Professions

Meet Your Professors

KEN SUFKA
Associate Professor of Psychology and Pharmacology
B.S., M.S., Ph.D., Iowa State

"Teaching is more rewarding than I ever imagined it could be. In fact, being in the classroom is the best part of my day. The students at Ole Miss are bright, motivated, and engaging. To be asked to be a part of their college experience leaves me with an overwhelming sense of responsibility to be the best teacher I can be."

Ole Miss has produced 23 of Mississippi's 28 Rhodes Scholars.

COMMITMENT TO DIVERSITY

In 1990, Ole Miss received national recognition for leadership in increasing the number of minorities receiving undergraduate degrees in science, mathematics, and engineering at the state's eight universities. The Top Ten Certificate of Recognition was presented in Washington, D.C., by the Quality Education for Minorities Network.

In 1997, African American student enrollment rose to a record 12 percent of the student population of The University of Mississippi—a total of 1,240 students. Students at Ole Miss come from more than 60 countries and 47 states.

The School of Pharmacy and the School of Business Administration have teamed up to offer a one-of-a-kind bachelor's degree in pharmaceutical marketing and management that prepares students for careers with the nation's top pharmaceutical companies.

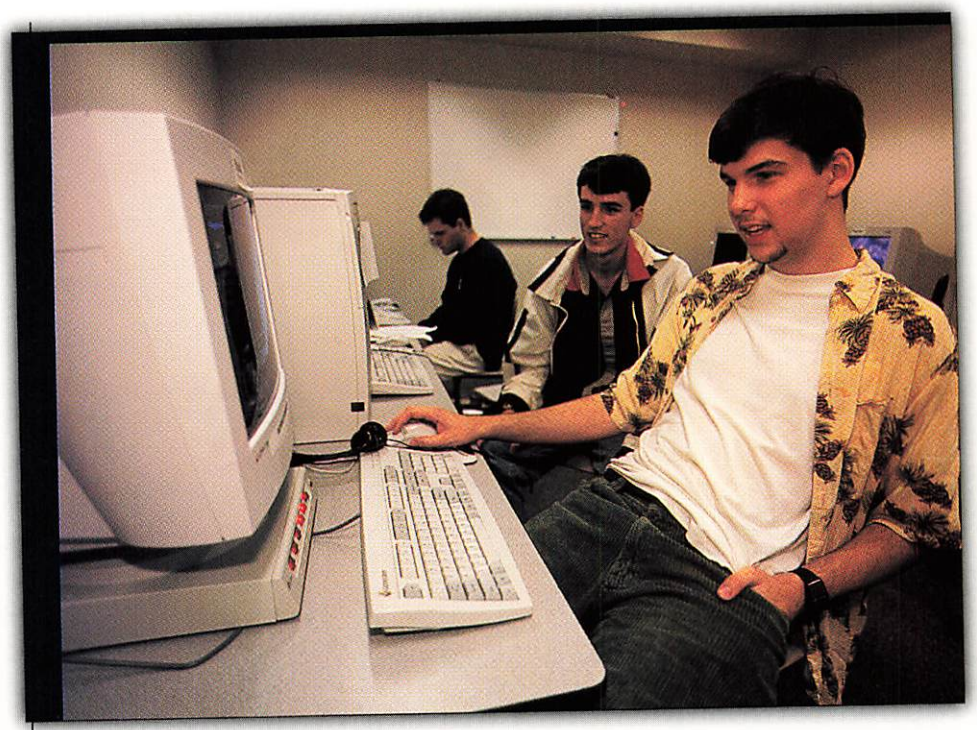
**The final two years of this program must be completed at The University of Mississippi Medical Center in Jackson.*



The McDonnell-Barksdale Honors College—established with a $5.4 million gift from Netscape CEO James Barksdale and his wife, Sally McDonnell Barksdale—offers a private-school atmosphere at public school prices.

Honors College students have the opportunity to experience smaller classes taught by master professors who are on the cutting edge of research in their fields. Students can participate in accredited study abroad programs and have access to a completely remodeled 17,500-square-foot refuge at the heart of campus. This facility features a state-of-the-art computer lab and multimedia classrooms, as well as a fireplace, gameroom, and kitchen.

In 1997, 120 freshmen entered the college. The average ACT score of the class was 31.

McDonnell-Barksdale Honors College

CLASS SIZE

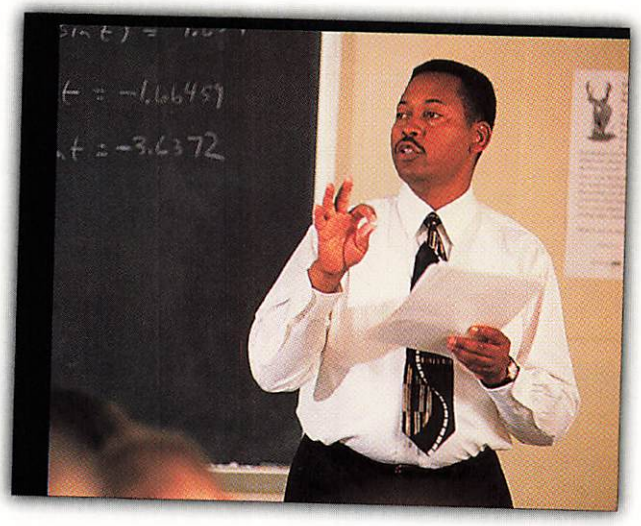
- 34 percent of all undergraduate class sections have fewer than 20 students.
- 58 percent of all undergraduate class sections have fewer than 30 students
- Only 18 percent of all undergraduate class sections have more than 50 students.
- Only 3 percent of all undergraduate class sections have more than 100 students.
- The average class size for freshman- and sophomore-level classes is 35*.
- The average class size for junior- and senior-level classes is 28*.

**These figures do not include labs, which usually are smaller than regular classes.*

Meet Your Professors

TYRUS MCCARTY

Associate Professor of Mechanical Engineering
B.S., Tougaloo College;
M.S., Ph.D., The University of Mississippi



"Teachers are in the unique position of being able to positively impact the lives of a great number of young men and women. Recently I listened to a group of our graduating seniors discussing how rushed and fast-paced their last semester had been. One of the students turned to me and said, 'Dr. McCarty, the worst part of this whole semester was not having you teach us a class our final semester.' As the rest of the group echoed this sentiment, I knew I had truly made a positive difference in the lives of this graduating class."

Croft Institute FOR INTERNATIONAL STUDIES

Established with the largest gift in Mississippi's higher education history—$60 million from the Joseph C. Bancroft Charitable and Educational Fund—the Croft Institute for International Studies will ensure that students are prepared for leadership in the diplomatic corps, international relations, business, law, accountancy, and other fields in our increasingly interdependent world.

Croft Institute highlights:

- Ten Croft Scholarships at $28,000 each awarded annually
- An international symposium and an international visitor program
- Study abroad and help obtaining internships
- Sixteen new Croft Professors specifically selected for the role each will play in the program

FINANCIAL AID DEADLINES

- Priority date for having Free Application for Federal Student Aid (FAFSA) results on file with the University is March 15. To meet this priority date, the FAFSA should be submitted to the federal processor by February 15.

- Academic Excellence Scholarships are awarded automatically to eligible students who by April 1 apply for admission and have qualifying test scores and grades on file.

- Consideration for general scholarships (other than Academic Excellence Scholarships) requires the submission of The University of Mississippi Scholarship Application by March 15.

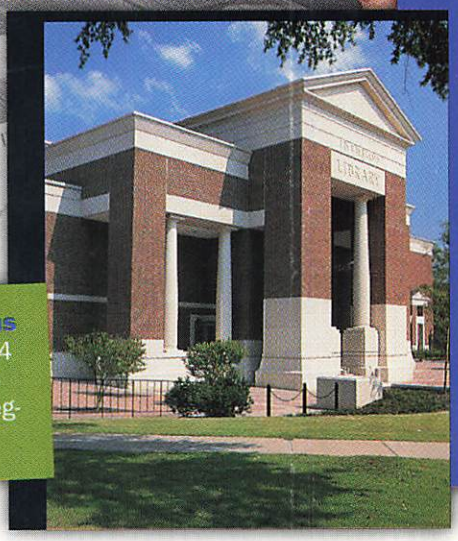
- The Mississippi Eminent Scholars Grant (MESG) and Mississippi Tuition Assistance Grant (MTAG) are available to eligible Mississippi residents. A special application form must be submitted by April 1 for priority consideration. MTAG/MESG applications are available from high school guidance counselors in January.

Financial Aid Office:
(601) 232-7175

As a **class assignment,** a special breed of students majoring in leisure management supports a program to preserve the wood duck population in the Toby Tubby Creek area about five miles from campus. Since the program began 10 years ago, more than 1,500 hours have been donated by Ole Miss students, and almost 200 birds have been introduced to the 30-acre wetland.

In one business class, students use a professor's computerized stock market trading system to "play the market." Instead of money, the professor awards points to students for their decision-making skills.

The John Williams Library is open 24 hours a day weekdays during the regular school year.



SPECIAL SCHOLARSHIPS

- The schools of Engineering and Business Administration, the McDonnell-Barksdale Honors College, and the Croft Institute for International Studies all award scholarships that require a special application. Contact these units directly for more information (see Page 24 for phone numbers).
- Service scholarships in athletics, art, band, music, theatre arts, and ROTC are awarded by the individual departments.

Meet Your Professors

JAN MURRAY

Chair and Professor of Art
B.A., Yale; MFA,
Yale School of Art

"My students are inquisitive, candid, and smart. On a typical day I am teaching Josef Albers color theory using kudzu leaves as the formal element of our visual exploration. Or we are doing research and writing about Theora Hamblett and Luster Willis at the University Museums. Our projects provide a vehicle to explore both the tangible, natural world and the invisible world of emotions and relationships. We add meaning to the world around us by creating visual metaphors."

Getting a Job

CAMPUS INTERVIEWS

- About 200 companies came to campus in 1997-98 to recruit Ole Miss students
- 1,350 interviews were scheduled

Some of the companies that interviewed Ole Miss students during 1997-98:

Arthur Andersen and Company
Baptist Memorial Health Care Corporation
BDO Seidman
Auto Zone
Claremont Technology Group, Inc.
ConAgra
Cellular South
Deloitte and Touche
Eckerd
Enterprise Rent-A-Car
FedEx
International Paper
Janssen
JC Penney

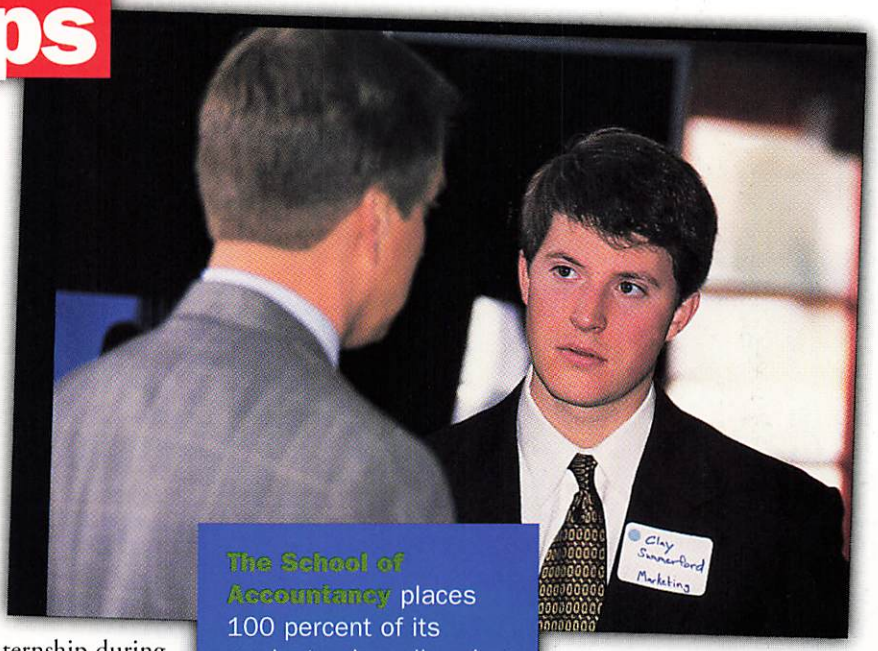
KPMG Peat Marwick
Kroger Pharmacy
Merck
National Bank of Commerce
Old Navy
Price Waterhouse
Prudential Insurance
State Farm Insurance
U.S. Department of Agriculture
Walgreen's
Worldcom
More than 40 school districts

The University of Mississippi Career Center can help match your skills and interests to a specific profession and then connect you with organizations that are hiring qualified graduates.

Specific services the Career Center offers include:

- Career counseling, workshops, and seminars on career-related subjects
- Resume-writing and interviewing assistance
- A 3-hour-credit class to help you make the transition into the world of work
- Opportunities for part-time jobs, internships, and full-time jobs
- Coordination of on-campus corporate recruiting
- Career fairs
- A library of current directories listing thousands of internships and summer jobs worldwide, and coordination of interviews for these opportunities
- An internship-sharing program with Southeastern and Atlantic Coast conference schools—including the University of Virginia, University of North Carolina-Chapel Hill, University of Tennessee, and University of Florida—which provides a clearinghouse of internship opportunities

Internships



Internships are the best way to give you a foot in the door with a particular company or industry. At Ole Miss, many programs give students this edge over others competing in the job market.

Here are just a few examples:

- During the past several years, Ole Miss psychology students have interned in facilities from South Carolina to Utah.
- Leisure management majors complete a 400-hour internship to earn a bachelor's degree.
- Junior and senior business administration majors frequently take—for course credit—a 10-week, full-time internship during the summer. Recently students interned with such companies as Merrill Lynch, State Farm, FedEx, and WorldCom.
- An internship in telecommunications offers an optional work opportunity for students in that field, providing a minimum of eight weeks of supervised work experience.
- The University's court reporting program places its students in an internship where their work assignments are almost indistinguishable from that of professional court reporters.

The School of Accountancy places 100 percent of its graduates in well-paying jobs, and many of those students have employment offers as early as 18 months before they graduate.

- The forensic science internship is a 10-week (or longer) placement in a municipal, state, or federal crime laboratory. Interns learn about the procedures of criminal and toxicological investigations.
- Social work majors spend their final semester interning with a wide variety of agencies, hospitals, elementary schools, and mental health centers.

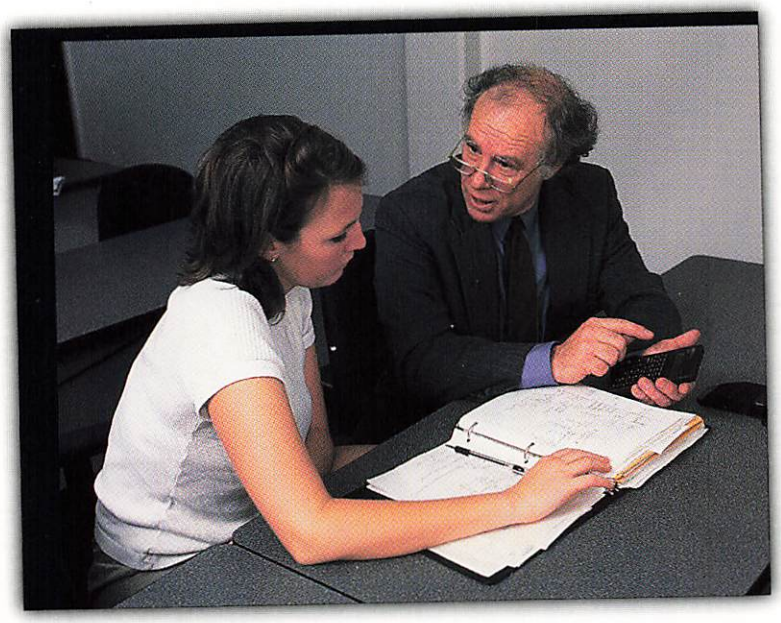
Meet Your Professors

BILLIE JEAN SEWELL

Chair and Associate Professor Emerita of Social Work
A.B., Union; MSW, Tulane

"Teaching at Ole Miss is a great experience . . . seeing traditional and nontraditional students from all walks of life enter classes apprehensively, then leave having gained the knowledge, skills, and collegiality needed to confidently enter 'the real world.' The University is small enough, yet diverse enough to allow us to know our students and continue to learn from our interactions with them."

Meet Your Professors



PHIL MALONE

Associate Professor of Finance
B.S., Berry College; Ph.D., University of Florida

"Not only is the Ole Miss campus a beautiful setting—it provides many of the amenities that facilitate intellectual development. In terms of Internet access, Ole Miss is one of the top public institutions in the world in students' ability to travel the international highway of information or just surf the Web. Add to this a good library, the stimulus of the Oxford cultural community, and freedom from the everyday distractions of a big city, and we truly have a college environment that is conducive to learning."

Where Do You Go From Here?

If you're like most students looking toward college, you're very interested in where your education will lead you. You're wondering where you'll be five, 10, or 20 years down the road.

It's impossible to predict anyone's future, but you can look at how far Ole Miss graduates have gone. Listed below are just a few examples.

The action never stops—from our winning Southeastern Conference teams to student-organized concerts and events.

We've Got The Momentum!

Student Organizations

Ole Miss student groups volunteered their time to help build a new playground in Oxford.

There are at least 200 ways to get involved and make friends at Ole Miss. These organizations include student government, academic honoraries, professional organizations, special interest groups, service organizations, cultural activities and performing arts groups, communications media organizations, student religious organizations, and 14 social sororities and 17 social fraternities.

Organizations include:

- Associated Student Body (student government)
- Black Student Union
- Association for Computing Machinery
- Lady Rebel M Club
- Wall Street South Investment Club
- Ole Miss Pistol Club
- College Democrats
- Young Republicans
- Students for Environmental Awareness
- University of Mississippi Gospel Choir
- Ambassadors (student recruiting group)
- Habitat for Humanity Student Chapter
- Tae Kwon Do Club
- Concerts and Films Committee
- Southern Theatre Festival
- Campus Crusade for Christ

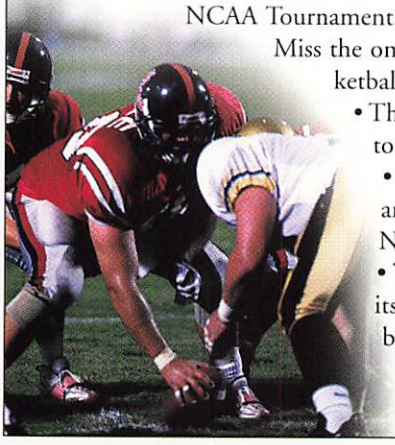
The University of Mississippi Concert Singers captured the highest choral music honor in the world in July 1998—the *Gran Premio Europeo di Canto Corale* Competition held in Gorizia, Italy. This was the latest in a string of international and national awards for the group, which has taken nine tours of Europe and one of Mexico during the past 17 years.

CAMPUS EVENTS

The University of Mississippi is a **cultural crossroads,** known for its Faulkner and Yoknapatawpha Conference and the Oxford Conference for the Book. Recent speakers include civil rights activist Julian Bond, U.S. Secretary of Health and Human Services Donna Shalala, economist John Kenneth Galbraith, and U.S. Senate Majority Leader and Ole Miss graduate Trent Lott; recent campus performances include the Sorbonne Orchestra, George Clinton, Adam Sandler, and Big Head Todd and the Monsters.

Southeastern CONFERENCE ACTION

1997-98 Highlights



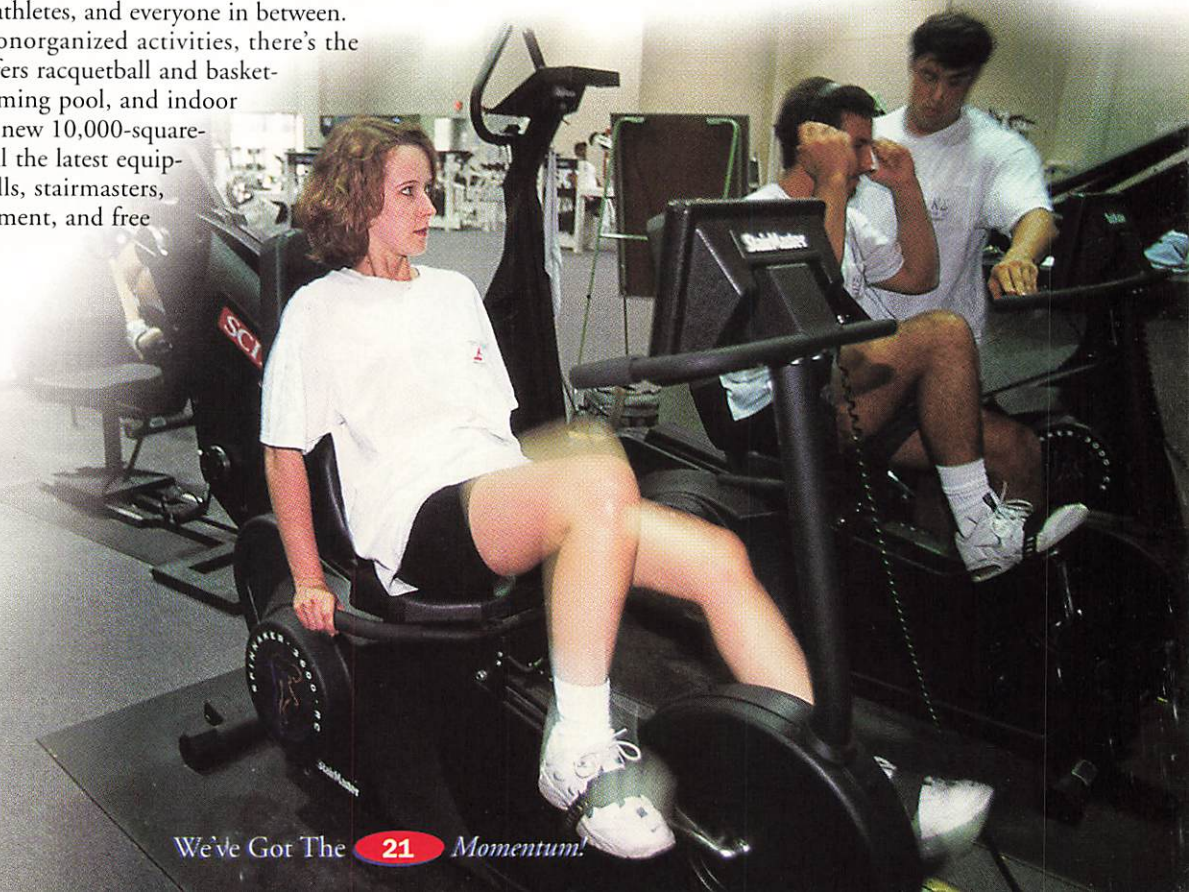
- The Rebel football team finished a successful year with a trip to Detroit and a victory in the Ford Motor City Bowl. The Rebels were ranked No. 22 in the final polls.
- The men's basketball team carried the winning feeling on campus through the winter with their second consecutive SEC Western Division crown and a second straight bid to the NCAA Tournament. The Rebels were ranked in the final polls, making Ole Miss the only school in the SEC to have its football and men's basketball teams ranked at the end of the season.
- The women's golf squad received the program's first-ever bid to the NCAA East Regional.
- Ranked in the top 10 throughout their season, the men's and women's tennis teams competed in their respective NCAA Tournaments.
- The Lady Rebel soccer team, in its third year of play, had its first winning season and earned the program's first-ever bid to the SEC Tournament.
- Men's and women's cross country/track and field squads were represented at the NCAA Championships.

Intramurals, Club Sports, and Recreation

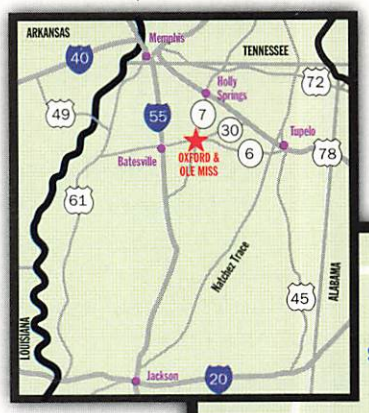
More than 7,000 Ole Miss students each year join teams in what is known as the intramurals program. Students get together with others from their hometown, their major, their residence hall (just a few examples of the common threads among intramurals team members) to play ultimate frisbee, wallyball, flag football, softball, basketball, tennis, and many other sports. There are teams for beginners, ace athletes, and everyone in between.

For individual or nonorganized activities, there's the Turner Center, which offers racquetball and basketball courts, indoor swimming pool, and indoor jogging track, as well as a new 10,000-square-foot fitness center with all the latest equipment, including treadmills, stairmasters, strength-resistance equipment, and free weights.

35% of undergraduates join Greek organizations at Ole Miss.



Want to Take a Closer Look?



The University of Mississippi is located in Oxford, which is approximately 75 miles from Memphis, Tennessee, and 170 miles from Jackson, Mississippi, the state capital. The University is easily accessible from Interstate 55 and is less than a day's drive from such major cities as Atlanta, New Orleans, St. Louis, and Dallas.

Call (601) 232-7378 or 1-800-OLE MISS (toll-free in Mississippi) to arrange a personal visit.

Prospective students and their families are encouraged to visit the Ole Miss campus. It's best to make arrangements in advance, but you are invited to drop in if you are in the area.

Campus visits can be scheduled to begin between 8:30 a.m. and 2:30 p.m. Monday through Friday and on selected Saturdays throughout the year.

If you are on campus for a weekday visit, we'd be happy to help arrange for you to

- meet with an admissions counselor
- meet with a financial aid counselor
- tour the campus with a student guide
- attend a class (the best times are Monday through Friday mornings)
- meet with a professor
- meet Ole Miss students
- meet with representatives from various student activities such as band, chorus, cheerleading squad, and dance team

With advance notice, arrangements can usually be made for you to stay overnight (Sunday through Thursday nights only) in a residence hall with a Student Ambassador host. Please be sure to bring towels and a sleeping bag or linens. Like class attendance, this option is available only when school is in session and before exams begin.

Typical Cost Per Semester

Tuition and Fees*	$1,527
Residence Hall Rent (includes telephone in room, cable, hardwired computer connection to University network)	$930
Books (estimate)	$325-$350
Food Plan**	$425-$750

**Out-of-state students should add $1,551 to the cost of tuition*

***Five food plans covering up to 14 meals per week at the University's newly renovated all-you-can-eat cafeteria are available. Each plan includes a designated amount of "flex" dollars students can spend at any dining facility on campus, including the food court in the Student Union. Campus-housed freshmen are required to purchase at least the minimum meal plan—$425 "flex" dollars to cover part of the food costs for a semester.*

In calculating costs, remember to include the cost of travel, clothing, incidentals, and spending allowance.

For information about admissions requirements, please see the Undergraduate Catalog or the application packet. To request either of these publications or for more information, call 1-800-OLE MISS (toll-free in Mississippi) or (601) 232-7226.
